**SUGAR MARKET**Latest Quotations by  
Alameda.

No Change for Export to Hawaii--Willett &amp; Gray--Congress and Tariff.

The following latest quotations of the sugar market are furnished for publication by Messrs. F. A. Schaefer & Co., and the extracts on the Eastern situation are taken from the two last circulars of Willett & Gray. The sugar quotations are to the 21st of February, inclusive:

Sugar--No changes in the local market nor for export to Honolulu since February 17.

Louis--Feb. 17th, cost and freight sales 1,200 tons, 4 7-16c, since which no sales reported, making net basis this date New York 4 7-16c; San Francisco 4 1-16c.

London Bees--Feb. 17-19, 9s 10 1-2d; Feb. 20-21, 9s 9d.

New York Refined--No changes in price or general condition.

Eastern and Foreign Markets--Latest mail advices report market steady and firm, with buyers perfectly willing to make new engagements at 4 7-16c for 96 degree centrifugals. European markets were a shade higher for prompt bees, but have declined a fraction the past two days.

California Bees--Rain is greatly needed in the Southern portion of the State in order to insure the success of the coming beet crop in that section. We have had quite general rain for the past three days in the northern part of the State, which will benefit crops generally in this section.

Statistical Position--Willett & Gray, Feb. 15th, total stock U. S. four ports estimated 156,329 tons, against 99,698 tons. Six principal ports Cuba 49,000 tons again 30,698; total stock in all principal countries latest uneven dates, 2,587,329 tons, against 2,590,382; excess over last year, 86,947.

Political Situation--We refer you to copy of letter from Mr. W. O. Smith, although we presume you may have received this direct. We also refer you to today's Chronicle, which we are sending you, giving the latest reports of Porto Rico and the Hawaiian Bills in Congress.

**Willett & Gray.**

Raws declined 1-16c. Refined unchanged. Net cash quotations are: Muscovados, 4c; centrifugals, 4.44c; granulated, 5c. Receipts, 23,630 tons. Meltings, 20,009 tons. Total stock in four ports, 156,329 tons, against 152,699 tons last week, and 99,698 tons last year. Afloats to the United States from all countries, estimated, 75,000 tons, against 125,000 tons last year. Beet sugar quotations, cost and freight, 10c 4 1-2d per cwt. for 88 degree analysis. First marks German granulated f. o. b. Hamburg, 11s 4 1-2d, equal to 4.94c, New York, duty paid.

This week's summary of the statistical position show stocks in the United States and Cuba together of 205,329 tons, against 189,699 tons last week and 120,396 tons last year, an increase of 74,933 tons over last year.

**Raw Sugars.**

The market has remained through the week quiet and steady, with a considerable business done with independent refiners in sugars for arrival, but none for sugars on the spot, on the basis of 2.31c. c. & f., equal to 4 1-2c per pound for 96 degree test centrifugals. At the close the principal buyers secured several cargoes of centrifugals at 2 3-4c c. & f., equal to 4 7-16c, duty paid for 96 degree test. The reopening of the refinery in Boston will increase meltings to some extent and there should be enough demand to keep prices steady on the basis of 4 7-16c for the present. Later on there should be increased offerings from the West Indies, also from Austria, on complete opening of the navigation there, and it remains to be seen what will be the effect thereof.

**Congress and the Tariff.**

Congress has taken no further action during the past week on the Porto Rico Bill, but will now likely push it faster in view of the reports received showing the distressing condition of affairs throughout the Island. Definite action on the Reciprocity Treaties is delayed, and the proposed reduction in duties on Cuban sugar is a long way off.

A reciprocity treaty has been signed by representatives of the United States and Great Britain covering the trade between this country and the Island of Trinidad. It provides for a reduction of 12 1-2 per cent in the duties on sugar imported here from Trinidad. The treaty must be ratified by the Senate before it becomes effective.

The report of the Philippines Commission, transmitted to Congress by the President, recommends, for the present at least, that no attempt be made to readjust the tariff to our basis on goods to and from these islands, and that, so long as the existing chasm remains between the Philippine and social conditions of the Philippines and those of the United States, so long it remains impracticable to identify their tariffs.

**The Expected Occurs.**

The presence of bystanders at the corner of Fort and Hotel streets yesterday forenoon averted what might have been disastrous results occasioned by two impatient runaways. A large two-wheeled cart containing a lady and two children caught the hind wheels of a buggy standing at the curb in front of Benson, Smith & Co.'s store. There was a crash and splintering of wood and both vehicles with the frightened animals were thrown toward the center of the street. The occupants of both vehicles held on to the reins, and, although almost thrown from their seats, luckily escaped damage. The

horse with the two-wheeler ran as far as Hotel and Union streets, where he was caught. A horse attached to a sewing-machine wagon, on the opposite side of the street, became alarmed and attempted to make a dash from the hitching post, but was prevented by pedestrians.

**Sad Lack of Rain.**

During February the total precipitation for Honolulu was but 1.14 and for the past four months only 4.39. As the normal rainfall is 19.31, there has been a deficiency of over 15 inches of rain. These are the figures of Weather Prophet Lyons, and while he can give no solid basis for encouragement, yet he speaks hopefully of probabilities in the future.

The prognosticator says that while the present drought is unprecedented, and its effects disastrous, yet optimistic people may trust, with some reason, for its cessation. Often, says Mr. Lyons, rain comes after a dry season.

**GRATEFUL CHINESE.**

Appreciation of Those in Charge of Kakaako Camp.

The committee of Chinese named below request the publication of the following testimonial:

Honolulu, March 1, 1900.  
To Mr. J. L. McComb, Dr. Bowman and A. L. C. Atkinson.

Gentlemen: We the unfortunate Chinese men and women, whose habitations in Honolulu were burned by order of the Board of Health, and who were for a period confined at Kakaako camp and deprived of every personal effect, dependent on those in charge thereof for aid and sustenance, take this our only means to voice our thankfulness and gratitude to your honorable selves individually and collectively for the many kind and truly charitable acts, whereby we were relieved from absolute nudity and the pangs of want. We most deeply regret our inability to hand a suitable souvenir to each of you with our sincere thanks. We will cherish you in unfading memory.

SA Y. NG.  
HOP KEN.  
LEE KEE.  
Committee representing the multitude of unfortunate Chinese at Kakaako Camp.

There are lots of "AA" brands of whiskey, but only one Jesse M. ore "AA". Lovejoy & Co., Honolulu, have it.

Secure your tickets for Orpheus tonight.
